PUBLIC WORKS SECRETARIAT.

Conversion of certain Travellers' Bungalows into Inspection Lodges.

READ—

Extract of Para 12—31, Public Works from the Report of the Retrenchment Committee 1931, recommending the conversion of certain 1st and 2nd Class Travellers' Bungalows in the State into Inspection Lodges.

(2) Note No. D. 409, dated 30th September 1931, from the Public Works Secretary.

ORDER No. P. W. 905-69—S, DATED 10TH OCTOBR 1931.

It is brought to notice that the Travellers' Bungalows in the State noted in the margin are rarely occupied by visitors and that they may, with advantage, be converted into Inspection Lodges without much inconvenience to the public. The Government are therefore pleased to direct that these bungalows be converted into Inspection Lodges with effect from the 1st November 1931.

1.	Second Class Travellers' Bungalow	at	Hoskote.
2.	Do	do	at Somenahalli.
3.	Do	do	at Antharasante.
4.	First	do	at Robertsonpet.
5.	Second	do	at Kumsi.
6.	Do	do	at Agumbi.

2. One of the men drawing lowest pay other than scavengers in each Travellers' Bungalow may be retained as a watchman. The savings effected thereby may be reported for the information of Government. The present members of the staff may, if possible, be absorbed in any vacancies of other Travellers' Bungalows where temporary men may be acting or in other Government Departments. Superannuated men may be retired and services of temporary men dispensed with.

M. G. RANGAIYA,
Secretary to Government,
Public Works Department.

Retrenchment relating to Krishnarajasagara Works.

READ—

Recommendations of the Mysore Retrenchment Committee relating to the Krishnarajasagara Irrigation Works—Revenue Account.

2. Note D. 105—K. S. S., dated 22nd September 1931, from the Chief Engineer, Krishnarajasagara Works.

ORDER No. P. W. 543-50—K. S. S. 1652-59, DATED 8TH OCTOBER 1931.

The measures of retrenchment referred to in the Report under Krishnarajasagara Irrigation Works are:—

(1) Abolition of the Circle of Superintending Engineer, Krishnarajasagara Works, resulting in a saving of Rs. 27,000 per annum.

(2) Reduction of working expenses by Rs. 17,400.

(3) Abolition of the Upper Channels and Gauging Division by amalgamating it with the Dam Construction Division, leading to a saving of Rs. 19,000 per annum.

2. Government have accepted these proposals. Orders have already been issued in Government Order No. 428-30—K. S. S. 1149-51, dated 5th September 1931, abolishing the Krishnarajasagara Superintending Engineer's Circle with effect from 1st November 1931. This measure has resulted in a saving of about Rs. 27,000 per annum of which one-fifth, *viz.*, Rs. 5,400 will accrue to the Revenue Account and the balance to the Capital Account of the Works.

Effect has also been given to the proposed reduction under Working Expenses of the Krishnarajasagara Works and the grant therefor in the current year's budget has been reduced by Rs. 17,400.

3. Government now direct that the Upper Channels and Gauging Division be abolished from 1st November 1931. The two Sub-Divisions for Gauging and Upper Channels with a small additional office establishment that may be required for work in the Divisional Office will be amalgamated with the Dam Construction Division.
